

Assignment for May 23rd

Look through the program and the instructions for the Role Play online. Since time during the 28th is limited, you are now encouraged to start working on the goals before the 28th.

Your assignment for the day of the 23rd is to *find another role-play group, or groups, that might realistically have the same kind of goals and interests as your own group's country.*

You are to meet up with the other group/groups on the 23rd, but it's up to you to arrange the meeting. Discuss together and start the process of discussing goals. Each original country group should in this way relate their suggested goals to other possible groups that might agree. This is a way of finding alliances and being prepared for the Role Play.

Each original country group should have at least 3 suggested goals with them to the role play.

Each original country group should also have a 5 minute presentation ready (see the programme).

IMPORTANT: I need, via e-mail, a brief description of the discussions on the 23rd per group (including names).
