

Extra task for missed seminar October 17th

Since you missed the seminar on October 17th you need to complete this extra task. Send it directly to Malin via e-mail. If you missed the whole day write about 1000 words on all the questions below, if you missed half of the day write around 500 on either the morning or the afternoon questions (depending on what part of the seminar you missed).

Morning questions;

- Briefly describe the history of Education for Sustainable Development – ESD.
- Is ESD a good concept? Why/why not? Reference to the articles for the day.
- What role do you think education plays in making society more sustainable?

Afternoon questions;

- Mini Challenge!
Look at Campus Geocentrum. Create an action plan with at least 7 points on how to make Geocentrum more sustainable. Try to create a plausible scenario. Motivate your choices and reference when necessary. You can do this extra task in a group if you like.

Good luck! /Malin
