**The seminar in the afternoon of October 10<sup>th</sup> focused on Polly Higgins book: Earth is our business**

**If you missed this seminar afternoon (regardless of if you have missed any other seminar), you need to complete this extra task.**

**Write a book review of Polly Higgins book. Use the following instructions as a support for your paper (you don't need to follow them exactly but especially those relating to a review within political science are useful):**

**The review should be about 800-1000 words and be sent to me via e-mail.**
