

## Further instructions for the Role Play

Remember that this is only a part of the examination; you will also need to submit your individual assignments.

This role play is designed so we hopefully can discuss, learn and have fun. The Role play will have some elements from a real UN-meeting of this kind, but not all. The Role Play will end in a document to be signed, but of course this is more of a discussion exercise given time limitations etc.

At the end of day 2 you will also be given the opportunity to evaluate both the role play and the course.

Please note that this schedule is somewhat tentative in its content. Start and end-times and also rooms are set though.
