

## ENVIRONMENTAL

GOALS decided upon through CONSENSUS

1. Halt degradation of ecosystems by 2030 with base year 2014.
  - a. Increase of restoration and protection of current areas

(Did not reach the vote)

2. Mitigation of global temperature rise to 1.5 (fill in later)  
raise in accordance with international agreements
  - a. climate fund 1 percent of GDP from all countries for mitigation

Suggestion: Build resilient and adaptive mitigation capacity to hold the increase of global average temperature to acceptable levels  
The details of this will be discussed during the UNFCCC conference

Economical

GOAL 1: Eradication of extreme poverty by 2025

Extreme poverty understood as 1.25\$/person/day

Creation of an Institution that would allocate funds from Developed nations to Developing nations. Such allocation would be based on criteria relating to governance (NEEDS TO BE DEVELOPPED)

GOAL 2: Green Economy

Understood as the promotion of inclusive and equitable growth for all nations. Special trade agreements could be allowed to developing nations based on certain criterias (such as GDP size ...)

Supporting this goal, the group considered technology transfert, sovereign state rights, property rights, circular economy, promote regional and inter regional trade

GOAL 3: Energy access to all

With (particular )focus on Developing renewable mix by 2030 at global level  
? with respect to national responsibility

Sovereignty of state

Support to developing nations due to resource limitations

Suggestion; quantify?

## SOCIAL

1. Ensuring *food security, safe drinking water and adequate sanitation* for all people worldwide through global cooperation by 2030
