

## Actors and Strategies for Change—Towards Global Sustainabilities 2014

### Project Start-up Workshop: Make-up Task

**Purpose:**

- Evaluate your own interests and allocate to one of the groups of the final project work
- Plan and structure the group work

If you have missed the project start-up workshop, we expect you to go through the list of groups and their topics for the final project work. This list will be posted on studentportalen. Please choose one of that groups and register yourself for it (please observe that a group can maximal consist of four students).

Arrange a meeting with all of your group members and summarize and reflect on the topic that your group has chosen. Furthermore, we want you to include a personal reflection why you want to be part of that group. How have your reflections from the sweet spot assignment influenced your choice?

Please write a report of at least 750 words including a time-line or structure plan of your group work.
