

Assignment for Literature Seminar on the book *Climate Wars*

Be sure to read the whole book before the seminar...

Answer the questions below (**using about 1000 words**) and e-mail to me NO LATER THAN April 11th via: malin.ostman.uu@analys.orkund.se

In addition to e-mailing me the document, you shall also **bring the two questions you formulate with you to class.**

- Choose two different points Welzer makes which you find interesting/upsetting in some way.

Describe these points briefly and motivate your choice.

- Formulate one discussion question per point (two in total). Bring these questions with you to class (in addition to e-mailing me). We will then use your questions in the discussions in order to include what you find most interesting with the book.
